

# Paramount Defenses Inc

Defending Security Infrastructures Worldwide

**Microsoft**  
Valued Id@A Partner

RSA CONFERENCE 2007  
**TOP 10 INNOVATORS**

## OVERVIEW

Paramount Defenses Inc, a privately held US information security company, develops and delivers mission-critical information security solutions vitally required to safeguard over 85 % of business and government organizations worldwide.

Established by former Microsoft Active Directory Security Program Manager, PD is one of only five independent software vendors worldwide recognized by Microsoft as a valued partner in the directory services based identity & access management space.

## BACKGROUND & MISSION

Over 85 % of organizations worldwide run on Microsoft's Windows Server operating system, at the heart of which lies Active Directory (AD), the very foundation of IT security. An AD based security breach could instantly and significantly jeopardize the security foundation, threatening & impacting business continuity.

PD is engaged in developing and delivering highly innovative & mission-critical AD based IT security & access assessment, auditing & management solutions for the Windows platform & beyond, for adequate protection.
