Status: **CSV** **PDF**

"We are very pleased to see Paramount Defenses, a valued Microsoft partner, offer an innovative security solution (in Gold Finger) that helps enhance security and compliance in Active Directory environments."

- Charles Coates, Senior Product Manager, Identity and Security Business Group, **Microsoft**

Capability Overview

Organizations have an essential need to be able to easily and reliably enumerate and audit the complete membership of Active Directory security groups as well as identify the list of all security groups to which a user or computer belongs.

The Gold Finger Active Directory Group Membership Reporting Tool was designed to help organizations efficiently, cost-effectively and above all trustworthily fulfill all their group membership enumeration, audit and reporting needs.

The Active Directory Group Membership Reporting Tool fully automates the instant, on-demand generation of both, user-based and group-based membership reports, based on complete nested group membership expansion. The tool also lets IT administrators, auditors, analysts and managers export data for analysis and generate fully customizable professional-grade PDF reports that can be furnished as evidence to demonstrate regulatory compliance.

Trustworthy Insight

When it comes to your security, accurate, trustworthy insight is paramount, because a single inaccuracy could mean the difference between being secure or vulnerable. At Paramount Defenses, we set the gold standard for trustworthiness.

Gold Finger is architected by none other than former Microsoft Program Manager for Active Directory Security so you have the assurance that it embodies authoritative expertise that you can rely on to deliver accurate, trustworthy insight. It is also 100% built in the United States, developed and tested over almost a decade, by highly proficient, experienced and trustworthy developers, 100% of whom are U.S. citizens, so you know you're running the world's most secure code. Finally, it is specially engineered to ensure that its use does not require any elevated/privileged/administrative access.

Perhaps that's why today the world's most important organizations in six continents worldwide use Gold Finger.

Licensing and Pricing

Gold Finger also offers the industry's most flexible licensing model. The Active Directory Membership Reporting Tool can be licensed individually or in combination with other tools in the Gold Finger suite, on both a short-term (weekly, monthly, quarterly) as well as a long-term (single/multi-year) basis. Short-term licenses are ideal for consultants and short-term projects, and long-term licenses are ideal for organizational use. A short-term license starts at US \$ 99.
